Stephanie:

Other requested validated MEDDs for the spring 2011 Caged Bivalve Study previously submitted to EPA and CDM on 11/21/11.

Let us know if these resolve the data submission questions.

Thx,
Bill Potter

Stephanie:

Attached is a submission of validated data collected pursuant to the Caged Bivalve Study QAPP (composite tissue data) that accompanies the CPG LPR Monthly Progress Report #54 provided under separate cover. This should be the final data submittal for the 2011 CBS work.

The files in this submittal include:

- 1) A cover letter containing a summary of the deliverable and a table listing the reference values that need to be added to EPA's database;
- 2) Zip files containing the files comprising the MEDDs; and
- 3) An updated valid value crosswalk spreadsheet for the database as requested by CDM.

Please note that the attached zipped data file has been provided as a "ZZP" file and the file extension should be re-named "zip" to open it (in the event EPA's e-mail system rejects this type of file).

Thx,
Bill P.
